"FIRST TO LAST-THE TRUTH: NEWS-EDITORIALS-ADVERTISEMENTS"

VOLUME XXXI.

MT. STERLING, KENTUCKY, TUESDAY, MARCH, 14, 1922.

NUMBER 43.

Re-Elected Head of City Schools

At the regular meeting of the city hool board on Saturday, Prof. H. Babb was again re-elected superintendent. Prof. Babb is a fine school man. From our knowledge of him, we would say, he is one of the very best in the state and our people are to be congratulated that he is to remain with us.

A city's intelligence is always measured by the standard of her schools and our school board can be depended upon to give us the best from the superintendent down. We have chosen to do this work and have no cause for complaint at their

Measure Prof. Babb as you may, he stands at the top. We predict people in these countries, and interthe entire faculty will be, as it has ever been, a credit to Mt. Sterling.

WHY NOT NOW?

Experience teaches that a De Laval cream separator will save \$20 to \$25 a cow every year over any gravity system of creaming milk, and \$6 to \$10 over the best of other separators. In other words, a De Laval will save its cost every ten months over the best of other separators while it will last on an average five times as long as any other De Laval separators in use in every country where dairying is known. There are more De Laval separators used than all other various separators combined. There is no farm in your edition of March 9, suggest- Guire, Dr. John Knox, J. R. MISSIONARY SOCIETY MEETS

The Woman's Missionary Society of Spencer Church met for an allday meeting at the home of Mrs. T. Perry on the Spencer pike Wednes-day, March 8th. On account of so much sickness the February meeting was not held until March.

Miss Emma Coons, President of the Society presided over the business session. The February program was conducted in the morning with Mrs. Tom Perry as leader. The subject was "On the Roof of the World,-Tibert."

At noon a delightful plate lunch was served by the hostess, Mrs. J. T. Coons and Mrs. Tom Perry. In the aftenoon the program was conducted by Mrs. Lawrence Kratzer, the subject being "Africa." Interesting pictures were shown of esting discussions were carried on by different members of the society. After the afternoon session ice cream and cake were served. Mrs. Houston Beall of Winchester was a visitor at the meeting.

HOMEY PHILOSOPHY FOR 1922

The greatest thing in the world we get for nothing if we want iseducation-but half of us don't know where to look for it. We have an idea it is all locked up in the little red school house or the palatial university just as if education was book learning instead of development of the mind and heart, knowing of useful things and the expansion of our best qualities. Education doesn't begin until schooling ends. It is then we meet the real teachers-other men and women, the birds, the flowers, the soul of books, the great expanse. Soon-before we go to work we'll pick up our "talkers" and say to the people over in India "Good morning, boys. How are you fellows getting along over there?" and then we'll learn. The the postoffice department with a po- harrowed in or drilled with a wheat invisible school house has just been litical broom and sweep from office drill set at about two pecks of flax opened.

There can be no worse element in The Williams conception of the post hell itself than the consciousness office department—the largest busihat the sufferer himself furnished ness in the world-may be that of a political huckster, but he needs a pair of binoculars to visualize the heart of the American people.

> Treasury Department, Office of the Comptroller of the Currency, Washington, February 28, 1922.

Whereas, by satisfactory evidence presented to the undersigned, it has of Kentucky, has complied with all the provisions of the Act of Congress "to enable National Banking Associations to extend their corporate existence and for other purposes," approved July 12, 1882;

Now, therefore, I, D. R. Crissinger, Comptroller of the Currency, do hereby certify that the Montgomery Nationa' Bank of Mt. Sterling, in the city of Mt. Sterling, in the county of Montgomery and state of Kentucky, is authorized to have succession for the period specified in its amended articles of associafion: namely, until close of business on February 28, 1942.

In testimony whereof, witness my hand and seal of office, this twenty-eighth day or February, 1922.

(Seal).

D. R. CRISSINGER, Comptroller of the Currency. Charter No. 6160. Extension No. (41-10t)

HOW SUIT DOLLAR IS DIVIDED

Presumably the American Woolen Company will not send a vote of thanks to C. J. Fawcett, director of the wool marketing department of the American Farm Bureau Federation for his disclosure regarding the travels of the suit buyer's dollar. It appears that on a suit of clothes which retails at \$40 the wool grower's share is \$1.96. Hence the wool grower's part of the suit buyer's dollars is 4.9 cents. Also a few other fallacies are exploded as for example the statement that domestic wool is not suited to the manufacture of the better grades of men's wear. There is no better wool in the world than American wool. The injection of cotton and shoddy into fabrics has swelled the coffers of manufacturers who in addition as an excuse for inferiority the poor quality of domestic wool. As the situation stands the wool growers get but a small share of the money and for their product condemnation instead

of praise. "May I hold your Palm, Olive?" Not on your Life, Buoy."

SUDAN GRASS GAINS FAVOR AS HAY AND PASTURE CROP

Although only a small acreage of Although only a small acreage of it was grown in the state last year, Sudan grass has demonstrated its usefulness to Kentucky farmers, both as a pasture and hay crop, and indications are that more farmers will try it during the coming year, according to crops specialists at the College of Agriculture. Not more College of Agriculture. Not more than 200 acres were grown in 1921, but it is probable that this will be increased to about 2,000 acres this

The grass, which is a fine-stemmed sorghum, is possibly more valuable in the state for pasture than it is for hay, this being especially true in the case of dairymen and farmers who are raising large numbers of hogs. From the time that it is a foot high, the grass will carweight of any class of stock an acre. On good land, the carrying capacity is even greater. The crop has further advantages in that the seed is cheap, ranging around four cents a pound, it is relished by all classes of stock and can be grown on any type of soil. The grass grows rapidly during July and August until killing frosts.

In Kentucky it is usually seeded from May 1 until July and is cut for hay when the first heads appear. It is possible to get two crops of hay a season from it and some pasture in addition. rFom 10 every man who could not exhibit the an acre, the latter method being preferable. The heavier rate of seedinnf is best both for hay and

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

NEW MODERN HOTEL

Before the campaign drive is launched, every man of affairs in Montgomery county will be decided as to the amount of stock he or she can manage. There are some persons amply able to take 100 shares and they will respond promptly; there are others who will be glad to take 75 shares and still others who will subscribe 50 shares; a great number will take 25 shares; many more 10 shares, a greater number 5 shares and then the hat will be passed and the other folks will have a chance at 1 share and up. The folder with the title "A New Hotel for Mt. Sterling" gives all the data, showing a paying investment, so that minds will be made up according to the shares wanted.

This folder shows Mt. Sterling a hotel center; that she needs accommodations; that she loses money from the lack of accommodations; that conventions of every name are barred from the lack of hotels; that travelers to and from pass us by on the Midland Trail; that investors seeking plant locations meet with disfavor, all of which are to Mt. Sterling's hurt, and are overcome by the new modern hotel. A table in this folder has a financial statement that gives a paying dividend.

ADJOURNS TOMORROW

Tomorrow evening with the clock stopped a few minutes before 12 o'clock, as is the custom, this legislature comes to a close, having passed two commendable political acts and one that pertains to the interest of all the people, Democrats and Republicans, making the tobacco pooling act legal by a unanimous vote, the entire legislature voting. These acts were expensive, but they will doubtless be appreciated the more.

EVOLUTION OPPOSITION SILENCED IN THE LEGISLATURE

By a 42 to 41 vote the legislature went on record as favoring the evolutionists. Briefly, 42 members are self-confessed descendants of a species of monkeys. That's the trouble, monkeys,

New Hotel Boosted By Former Resident

H. H. Barnes Sends Letter of Com mendation and Desires to Purchase Stock

An enthusiastic letter has just been received by J. O. Greene from H. H. Barnes, a former resident and business man of Mt. Sterling, who is now managing the very successful Ruffner Hotel at Charleston, W. Va. Mr. Barnes having been unusually successful in the hotel game, speaks with authority. The letter in part reads as follows:

J. Oldham Greene, Mt. Sterling, Ky. Dear Oldham: Have just read in a Mt. Sterling paper of the proposed idea of a hotel for Mt. Sterling (my old home). I naturally have a soft spot in my heart for the old home town, and feel interested in any and all things happening.

My experience and success in hotel work dates back to the year of 1904, when I first started out at the old National Hotel.

Mt. Sterling surely needs a hotel now, and when you get the right man to run your place no doubt he will make money for the stockholders.

Since leaving my old Kentucky home my success in hotel work has been almost phenomenal. So if I can be of any assistance in the way of suggestions to the stockholders, I will only be too glad to serve you, and when the time arrives for subscriptions, you may count on me for some stock.

I often see Bill Strossman here, and it is always a pleasure to hear of my friends and their success.

Here is hoping the enterprise will go forward and all will lend a helping hand. I am, Your friend, H. H. BARNES.

NICKEL SALES BUILT GREATEST BUILDINGS

Any merchant reader of The Advocate who may be inclined to look down on a nickel transaction can get a very different view point when he looks up at the colossal Woolworth building in New York or the Wrigley building, Chicago's most lofty office building.

These two structures represent constant turnovers, constant nickel sales. Along this line we quote portions of an editorial from Printer's

The nickel gave to us the Woolworth building, one of the seven wonders of the twentieth century. Now it has given to us the Wrigley building, Chicago's most lofty office building. Spearmint, Doublemint and Juicy Fruit put up this magnificent skyscraper.

The building is not only a credit to Mr. Wrigley, but is a monument overwork or from hiccoughs are to advertising. It is advertising that about equally rare. gives the nickel its fortune-making potency. It opens up the purses of the masses for the product that sells for only five cents. The vast majority of our millions of people are prospects for a five-cent package of gum, a package of Uneeda biscuit or a roll of Life-Savers.

How the demure nickel plus advertising multiplies markets is well illustrated in the case of the astounding success of the five-cent package of raisins, recently put out from California. The nickel unit wrought this business miracle, just as it has done before in so many

WORK

We sometimes hear of people who work themselves to death, just as we hear of ghosts and man-eating sea serpents. And all the time we know "there ain't no such animal." For one man who works himself to death, 10,000 die from lack of exercise, overeating, late hours or avoidable worry. Fatalities from

Work develops; work stimulates; work strengthens; work induces, promotes and compels growth; work lays a corner stone in the success structure whose place cannot be filled by a substitute.

Hard work will not at all take the place of judgment, thoughtfulness, tact nor an earnest purpose. Added to these, however, it always means a successful career.

But to many people, "work" is an ugly word .- The Optimist.

The Advocate, twice a week.

How's Your Stomach? and Your Liver? Health is Most Vital to You

Durham, N. C.—"As for Dr. Pierce's Golden Medical Discovery which I use constantly, I don't believe there is a better liver medicine made. I use it for headache, stomach disorders and torpid liver. It is not unpleasant to take and does not leave a constipated condition as so many of the liver pills and medicines do. It does its work and leaves one feeling like a new person."—Howard Holden, 1306

You can quickly put yourself in A-1 condition by going to your druggist and obtaining this Discovery of Dr. Pierce's in tablets or liquid, or write Dr. Pierce, president Invalids' Hotel, in Buffalo, N. Y., for free medical advice.

SIR HARRY LAUDER CALLS FOR HELP

Noted Scotch Comedian In Letter To Col. Fred Levy Endorses The American Jewish Relief Committee Campaign.

Kentuckian's Are Urged To Joint The Rest of The Country In Contributing Funds For The Relief of Starving And Destitute Jewish People In Europe.

Sir Harry Lauder, the great Scotch comedian, is firmly of the opinion that in helping the stricken people of Europe, Americans will also be helping themselves. Upon a recent visit to Louisville, Sir Harry wrote a letter to his friend, Col. Fred Levy, State Chairman for Kentucky of the American Jewish Relief Committee, endorsing heartily the efforts of that organization to raise \$150,000 in the state for the starving orphans and men and women of Central and Eastern Europe. Sir Harry declared that it is as much the business of the non-Jew as it is of the Jew that Europe gets on her feet at e earliest possible mo-

While the campaign in Kentucky is being conducted by Jewish people and while the appeal for aid is made to them direct, all who desire to give are urged to do so and are assured that their contributions will be gratefully acknowledged.

Sir Harry's letter follows:

to get back to normal.

"Dear Col. Levy: "I am so impressed on just learning conducting a campaign here for relief of the many destitute Europeans, that I wondered if it would not help your ness of heart impelling busy men to sacrifice time and give large sums for this purpose, is bound to be repaid a

HALF OF HATCHING EGGS

Kentucky farmers annually lose more than 24 million eggs and 12 million chicks through their efforts to rear chickens to maintain the 10 million hens on farms of the state, according to poultrymen at the College of Agriculture. These figures mean that one-half of all the eggs incubated fail to hatch and nearly one-half of all the chicks hatched die before reaching market size or maturity, the specialists say,

The main cause which they outline for this loss during incubation and the first few weeks of brooding are due to the management of the poultry used as breeders, the care of eggs previous to and during incubation, and the operation of the incubator. The cost of Kentucky chicks could be reduced more than \$500,000 each year by increasing the hatch from 50 to 75 chicks from

"The first step toward more and better chicks is to produce good quality eggs," J. H. Martin, in charge of the college poultry work, said. "Eggs suitable for producing healthy, vigorous chicks must be fertile, fresh in quality, normal in size, shape and shell texture and produced by healthy, vigorous stock.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui. "My husband, having heard of Cardui. "My husband, having heard of Cardui. "The contest was held by the can Legion at Auburn, N. Y. produced by healthy, vigorous stock. They should be kept in a clean, well ventilated room having a temperature of about 50 degrees. Ten days is the longest period eggs should be held before being placed in machines and the shorter the time they are held the better will be the hatch.

"While the hen is a good incubator of eggs, she is being replaced rapidly by the hot air, hot water or electric machines, all of which give good results under proper management. The type of machine to buy is the one that is durable, built of good materials, well insulated from the outside temperature and easily

cleaned. It also should have a heat-TURN OUT TO BE BLANKS ing device that is capable of supplying sufficient heat, and a heat control that is accurate. Ample provision for ventilating the egg chamber is important. Operation of the machine is best done according to the manufacturer's directions."

For printing, see The Advocate.

American Legion News

To put 700,000 ex-soldiers into jobs is the American Legion's immediate objective, according to an announcement from legion national headquarters. To accomplish this, a nation-wide drive will be lauched from local posts in every city and town in the country on March 20, and employers and business men will be called into conference to devise ways and means of creating jobs and putting an end to a situation which Hanford MacNider, legion commander, has called "the greatest crisis in the legion's history." Civic organizations from Maine to California have been asked to swing into line to back up the legion and make a concerted effort which will be felt in all sections of the country. By stimulating industry, by pushing engineering projects and municipal developments, by speeding up public utility enterprises, road building, paving, dredging, truck gardening, reforestation and reclamation, and by encouraging the "back-to-thefarm" movement, the legion hopes to break the labor slump which has kept worthy men out of work and caused widespread disaster. Each city will be divided into regions, each under its own post and employment committee, with a general committee co-ordinating the efforts of all.

The assembly of New York, in legislative session, has passed a resolution endorsing the American Legion's five-fold adjusted compensation measure and urging its passage. Copies of the resolution were sent to New York members of congress.

It took a small Jewish girl and a little maid from Italy to win first and second prizes for the best essays on "Our Greatest American." The contest was held by the Ameri-

40 cases of soft drinks, two bushels of peanuts, 20 gallons of ice cream, 1,045,575,000 bushels or 37.2 per 4,000 sandwiches and a crate of oranges were consumed by 900 exsoldiers (and friends) at an American Legion housewarming at Binghampton, N. Y.

"There is only one god, and that god is Allah," yelled a young man at midnight from the top of a lonely hill in Nashville, Tenn. The police were not placated until American Legion comrades explained that he was being initiated into a Greek letter fraternity.

> Our loves shape our lives and the character we esteem becomes correspondingly our own by that act. We are ever prone to imitate what we appreciate and sever our ideas from our ideals. The love of vice makes men vicious; and the love of virtue makes men virtuous.

erop on farms March 1, 1921, and Fortune came and knocked at our 33,820,000 bushels or 22.9 per cent door with cheery hail, but, as for Fortune's labors, we were over at our neighbor's pouring out a hard

THE MT. STERLING

The new hotel means more dollars for Mt. Sterling. The construction of this fine community built hotel will entail an actual structural cost of approximately 60 per cent of its total cost, or \$40,000 for labor alone! The remaining 40 per cent, or \$30,000 will go into material.

The item of \$40,000 will be distributed locally to local mechanics. This same \$40,000 will, in turn, be redistributed to the merchants and business men of the community and finally to the banks of Mt. Sterling.

And what of the balance, which will be expended for building materials? These materials, you may depend, will be purchased as largely commensurate with good business right here in Mt. Sterling, or through material supply agents of Mt. Sterling. Thus it will be seen that practically every dollar invested in Mt. Sterling's newest and biggest community enterprise WILL REMAIN IN MT. STERLING, and what's the result?

This sum of money being constantly turned over and over, right here in Mt. Sterling means quickened prosperity for everyone in the community, whether he is the wage earner, the merchant, the professional man or the banker.

Every dollar invested, once started on its way, will oil the wheels of Mt. Sterling's prosperity, and then when the hotel is built and in operation, many, many more thousands of dollars of new business will be created for our community.

Every dollar invested in Mt. Sterling's new and modern hotel remains in Mt. Sterling, creating wages, business and profits for everybody concerned. It is always good business to create new and profitable business.
